

# Fort Stewart, GA

**279,000 Acres**  
**91,000 Acres Wetlands**

- Long Leaf Pine / Wire Grass Ecosystem
- 6 Threatened and Endangered Species
- Urbanization on Southern and Eastern Boundaries

# Training Load

- 3d Infantry Division (M)
- 30<sup>th</sup> Infantry Brigade (M)
- 48 Infantry Brigade (M)
- 218<sup>th</sup> Infantry Brigade (M)
- 278<sup>TH</sup> Armored Cav Regiment
  
- Over 200 other NG and USAR Units

## The Challenge:

- Sustaining the land in an environmentally sound manner which also supports training and unit readiness
- Sustaining and modernizing the training infrastructure
- Reshaping the land to support battalion maneuver

## The Solution:

- Training Support Quality Management Board (TSQMB) -  
A Proactive / Coordinated Range Sustainment Management Process
